

A SPECIAL OFFER FOR FRIENDS OF THE BRITISH CEMETERY

Many books have been written about this battle. This one is by Lt Col Peter Edwards, a member of our Association. The book covers the whole of the campaign of 1811 and quotes extensively from eye witness accounts. So there are detailed accounts of Barrosa, the actions at Campo Maior, Sabugal and Los Santos, the battle of Fuentes de Oñoro and the first two sieges of Badajoz. In addition to a detailed account of the actions, Peter indulges in some piercing analysis of timings and decisions and challenges some long held opinions
